

JOSHUA C. LINA

SOFTWARE DEVELOPER

ABOUT ME

I am graduating this year with a degree in Information Technology, driven by a strong passion for web development. I'm eager to grow into a skilled web developer and constantly learning to improve my knowledge in both front-end and back-end technologies. I believe that every project is a new opportunity to learn, explore, and create something meaningful. I'm excited to start my journey in the tech industry and build real-world solutions through code.
